

Semco® plastic cartridges, plungers and seals

Cartridges

Disposable plastic cartridges are available in 1, 2.5, 3.5, 6, 8, 12, 20, 32 oz. and 1/10 gallon capacities for use with Semco® dispensing guns. Cartridges are available in low or high density natural polyethylene and special order colors. All sizes are designed to accept 1/4 NPT fittings.

Plungers

Precision molded plungers in regular (P) and wiper (WP) styles are designed to fit the cartridge contour, assuring complete dispensing and the elimination of waste.

Seals

The TS-seal seals at three places in the threaded neck to prevent leakage. The T-seal and TC-seal thread into the neck of the cartridge. The TC-seal also engages the cartridge neck seal. The S-seal fits over the threaded end of the cartridge. The F-cap is designed to fit the flange end of the cartridge to prevent contamination.

Nozzles

Nozzles that thread into the neck of the cartridge are available in a wide range of openings and configurations. See reverse side for more information.
