

SAFTEY DATA SHEET

Sealant Removal Wipes

Section 1. Identification

GHS product identifier Sealant Removal Wipes (AVIATION GRADE)

Other means of Identification Not available.

Relevant identified uses of the substance or mixture and uses advised against
Uncured sealant/adhesive remover.

Supplier's details: Bergdahl Associates, Inc.
2990 Sutro Street
Reno, NV 89512
Tel: +1-775-323-7542
Fax: +1-775-323-7595

Emergency Contact 24/7: ChemTel, Inc., Contract Number: MIS5861969
For U.S., Canada, Puerto Rico, & U.S. Virgin Islands: +1 (800) 255-3924
Outside North America: +1 (813) 248-0585

Section 2. Hazards identification

Classification of the substance or mixture: Not a hazardous substance or mixture.

GHS Label elements, including precautionary statements: Not a hazardous substance or mixture.

Emergency Overview: Avoid contact with eyes. Wash thoroughly after handling.

Potential Health Effects:

Eye: Contact may cause mild eye irritation including stinging, watering and redness.

Skin: Not known to be a skin irritant. No harmful effects from skin absorption have been reported.

Inhalation: No information available. Studies by other exposure routes suggest a low degree of toxicity by inhalation.

Ingestion: Low degree of toxicity by ingestion.

Signs and Symptoms:

Effects of overexposure may include irritation of the nose, throat and digestive tract, transient excitation followed by signs of nervous system depression (e.g., headache, drowsiness, dizziness, loss of coordination, disorientation and fatigue).

Cancer: No data available.

Target Organs: No data available.

Developmental: No harmful effects are expected from exposure to this material.

Pre-Existing Medical Conditions: None known.

Section 3. Composition/information on ingredients

Components	CAS#	Exposure Guidelines (OSHA/ACGIH)
Dipropylene Glycol Monomethyl Ether	34590-94-8	None
Dipropylene Glycol Dimethyl Ether	111109-77-4	None
Ethoxylated Castor Oil	61791-12-6	None
Amphoteric Surfactant	000107-41-5	None
Water	7732-18-5	None

Section 4. First aid measures

Eye: If irritation or redness develops, move victim away from exposure and into fresh air. Flush eyes with clean water. If symptoms persist, seek medical attention.

Skin: First aid is not normally required. However, it is good practice to wash any chemical from the skin.

Inhalation: If respiratory symptoms develop, move victim away from source of exposure and into fresh air. If symptoms persist, seek medical attention. If victim is not breathing, clear airway and immediately begin artificial respiration. If breathing difficulties develop, oxygen should be administered by qualified personnel. Seek immediate medical attention.

Ingestion: First aid is not normally required; however, if swallowed and symptoms develop, seek medical attention.

Section 5. Fire fighting measures

Flammable Properties:

Flash Point: None

OSHA Flammability Class: Not regulated

LEL/UEL: None

Auto ignition Temperature: None

Unusual Fire & Explosion Hazards: Closed containers exposed to extreme heat can rupture due to pressure build up.

Extinguishing Media: Use extinguishing agent suitable for type of surrounding fire

Protection of Fire Fighters: For fires beyond the incipient stage, emergency responders in the immediate hazard area should wear bunker gear. When the potential chemical hazard is unknown, in enclosed or confined space, or when explicitly required by DOT, a self-contained breathing apparatus should be worn. In addition, wear other appropriate protective equipment as conditions warrant (see Section 8). Isolate immediate hazard area and keep unauthorized personnel out. Stop release if it can be done with minimal risk. Move undamaged containers from immediate hazard area if it can be done with minimal risk. Water spray may be useful in minimizing or dispersing vapors and to protect personnel. Cool equipment exposed to fire with water, if it can be done with minimal risk.

Section 6. Accidental release measures

Stay upwind and away from release. Notify persons downwind of the release, isolate immediate hazard area and keep unauthorized personnel out. Stop release if it can be done with minimal risk. Wear appropriate protective equipment including respiratory protection as conditions warrant (see Section 8). Prevent spilled material from entering sewers, storm drains, other unauthorized treatment drainage systems and natural waterways. Dike far ahead of spill for later recovery or disposal. Spilled material may be absorbed into an appropriate absorbent material. Notify appropriate federal, state and local agencies. Immediate cleanup of any spill is recommended.

Section 7. Handling and storage

Handling: Do not enter confined spaces such as tanks or pits without following proper entry procedures such as ASTM D-4276 and 29CFR 1910.146. The use of appropriate respiratory protection is advised when concentrations exceed any established exposure limits (see Sections 3 and 8). Wash thoroughly after handling. Use good personal hygiene practices.

Storage: Keep container(s) tightly closed. Use and store this material in cool, dry, well-ventilated areas. Store only in approved containers. Keep away from any incompatible material (see Section 10). Protect container(s) against physical damage.

Section 8. Exposure controls/personal protection

Engineering Controls: If current ventilation practices are not adequate to minimize exposure, additional ventilation or exhaust systems may be required.

Personal Protective Equipment (PPE):

Respiratory: Respiratory protection is not usually required.

Skin: Not required based on the hazards of the material. However, it is considered good practice to wear gloves when handling chemical.

Eye/Face: Use approved eye protection to safeguard against potential eye contact, irritation or injury. Depending on conditions of use, a face shield may be necessary.

General hygiene Considerations: A source of clean water should be available in the work area for flushing eyes and skin. Impervious clothing should be worn as needed.

Section 9. Physical and chemical properties

Physical Form:	Liquid
Flash Point:	None
Flammable / Explosive Limits (%):	None
Autoignition Temperature:	None
Appearance:	Clear, colorless liquid
Odor:	mild
pH:	6.7 – 8.0
Vapor Pressure:	as Water
Vapor Density (air=1):	No data
VOC Regulatory Limit (g/L)	30
Boiling Point:	100°C
Freezing / Melting Point:	<0°C (32°F)
Solubility in Water:	100%
Evaporation Rate (nBuAc=1):	Slow
Specific Gravity:	1.00 – 1.03

Note: Values are determined at 20°C (68°F)

Section 10. Stability and reactivity

Chemical Stability:	Stable under normal conditions of storage and handling.
Conditions to Avoid:	Extreme temperature.
Incompatible Materials:	None known.
Hazardous Decomposition Products:	May create oxides of carbon if exposed to extreme heat.
Hazardous Polymerization:	Will not occur.

Section 11. Toxicological information

Acute Toxicity:	Components are of low toxicity.
Chronic Toxicity:	No chronic toxicity has been identified.

Section 12. Ecological information

No adverse environmental effects are foreseeable.

Section 13. Disposal considerations

This material, if discarded as produced, is not a RCRA "listed" or "characteristic" hazardous waste. Use resulting in chemical or physical change or contamination may subject it to regulation as a hazardous waste. Along with properly characterizing all waste materials, consult state and local regulations regarding the proper disposal of this material.

Section 14. Transport information

	DOT Classification	IMDG	IATA
UN number	Not regulated	Not regulated	Not regulated
Proper shipping name			
Transport hazard class			
Packing group			
Environmental hazards	No	No	No

Section 15. Regulatory information

Toxic Substances Control Act (TSCA): All ingredients of this material are on the TSCA Inventory list.

EPA (CERCLA) Reportable Quantity: None

SARA Title III Section 302

Extremely Hazardous Substances: None

SARA 311/312 Hazard Categories:

Fire: No

Pressure Generating: No

Reactivity: No

Immediate (acute) Health Hazard: No

Delayed (chronic) Health Hazard: No

SARA 313 (40CFR 372) Reporting: None known

California Proposition 65 Reporting: None known

This material has not been identified as a carcinogen by NTP, IARC or OSHA.

Section 16. Other information

Hazardous Material Information System (U.S.A.)

Health 0 Flammability 0 Physical hazards 0

Caution: HMIS® ratings are based on a 0-4 rating scale, with 0 representing minimal hazards or risks, and 4 representing significant hazards or risks. Although HMIS® ratings are not required on SDSs under 29 CFR 1910.1200, the preparer may choose to provide them. HMIS® ratings are to be used with a fully implemented HMIS® program. HMIS® is a registered mark of the National Paint & Coatings Association (NPCA).
